

Reduce, Reuse, Recycle – these three 'R' words are an important part of sustainable living, as they help to cut down on the amount of waste we have to throw away.

It's Really simple!

- Reduce the amount of waste you produce.
- Reuse items as much as you can before replacing them.
- Recycle items wherever possible.

Using the 3 'R's also helps to minimise the amount of space needed for landfill sites, where waste materials are disposed of.

At Coulsdon C of E we have clothes recycling bins so families can donate old clothes to be reused or recycled.

Also, our Year 6 prefects also help collect our recycling every Friday so it can be placed in the recycling bins.

Cool Facts

For every tonne of paper that is recycled, 13 trees are saved.

Cool Facts

The energy saved by recycling one plastic drink bottle is enough to power a computer for 25 minutes.

Together, we can make a difference.
